

Dear sponsors and friends, our work with the WINGS Children's Home in India continues. I work as the director of operations in Ongole – a work that is under the oversight of the Grace Chapel Church of Christ in Cumming, GA.

Each child in the Home receives all of the necessities of life including clothing, food, schooling, and medical and dental care. The children come from several different types of family situations: (1) Both parents are living, but, due to poverty, are not able to care for their children. (2) One parent has died or left the family. (3) One or both parents are sick... AIDS, Leprosy, TB, mental illness. (4) Both parents are deceased and the child lives with another family member.

There is an understanding between each family and the Children's Home that each child will be raised in a loving Christian environment and be shown the love of Christ on a daily basis. As a result, many of these family members have become Christians.

Each year in May and June, we meet with all of the children and their families and allow the family member to make the decision about the upcoming year. Depending on the number of openings, we contact local preachers to identify families in need of the Home.

We thank you, sincerely, for your ongoing support and prayers, for without it this ministry would not be possible.

Your brother in Christ,  
Ramakrishna Chintapalli
