

# SANCHEZ FAMILY MISSION Feb. 2018

Beloved brothers and sisters.

God continues to bless us by allowing us to see how His power works in the lives of many people through his word. This month our congregation was blessed with 5 new births for the glory of God. Our new brothers are: Juan Andres, Wilmer, Romi, Juan y Cristina.

Juan Andres and Wilmer, who are part of the study group that I have on Tuesdays and Thursdays. Wilmer is of Colombian nationality. Wilmer lived many years of his life destroyed by sin, alcohol and crime, and many times on the verge of dying. After having lived without hope in his life, for the glory of God he arrived in Chile. He accepted the invitation to study the word and after 3 months he decided to obey the Gospel of Christ. Now we see a man full of joy and hope for what Christ has done in his life. Romi is part of a family of our Bolivian brothers. She arrived in Chile 3 months ago and after some studies and visits to our congregation, God opened her heart. After having asked me how someone could be forgiven and saved by God, I preached the gospel of Christ, and she immediately decided to be baptized for the glory of God.

I thank God also for His servants, especially my brother Raul Diaz, one of our preachers, for all his work and love for the kingdom of God. After Raul preached the gospel to Juan, he decided to give his life to Christ.

Also this month we were blessed with my in laws' Ed and Vickie visiting us. They were a great blessing for our lives as they came to Chile for the first time. Ed was encouraged our congregation by preaching twice, regarding the love God has for us and how we can lift the fallen walls of our lives according to the book of Nehemiah. As well as just encouraging my wife and I and our work here. It is such a blessing to not only have such a loving family in blood as well as in Christ.

We were also greatly blessed with the visit of our brother Bob Young. For 2 weeks we were growing in the knowledge of the word of God, being also encouraged with Second Corinthians learning about everything we are, everything we have, and above all that we have a ministry for the mercy of God. We learned that we are in this world to be fragrant before God and that although we are clay, God can work with his power in each of our lives. The churches in Chile were very encourage and excited with the visit of our brother and we thank God for the love, disposition and all the sacrifice that my brother shows to serve the Kingdom of God for all the places he visits by sharing the word. Finally, our brother was preaching in the united worship of the Church of Christ in Chile where he invited us to continue to maintain that peace with God and the peace that must exist between one another.

The Churches of Christ in Chile continue to work hard together for the fellowship, love and above all for the progress of the gospel of Christ to reach other cities and in the same way to strengthen other congregations throughout Chile.

We appreciate all your prayers and support for my family.

We ask your prayers so that God keeps opening doors to continue preaching his word.

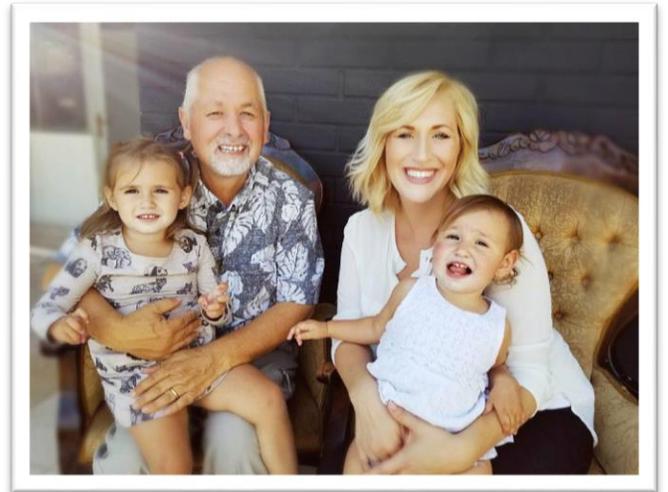

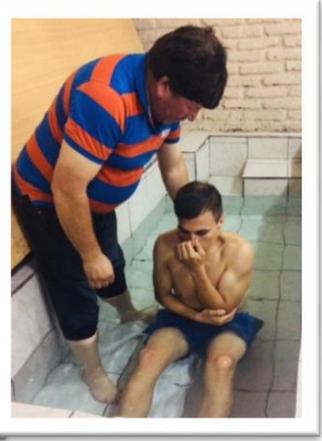

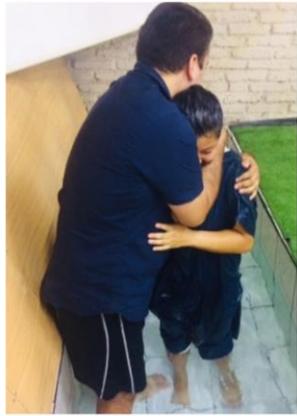

Much Love in Christ.

Sánchez Bass family.

Pablo, Laura, Daisy and Emily

**PS. I have attached photos of the baptisms and activities**
